GENERAL RULES.

General rules.

CUSTOMS TREATMENT OF TEXTILES.

Textiles.

Thread count.

RULE 1. NUMBER OF THREADS AND ITS ASCERTAINMENT.—By the number of threads in a textile shall, unless otherwise stipulated, be meant the totality of all the threads comprised in the warp and weft in a square of six millimeters. The warp of textiles is to be considered as the totality of the threads which lie longitudinally, whether they form the foundation of the same or whether they have been added in order to form patterns or give the stuff more body. The weft shall be considered the totality of the threads which cross the warp of the textile and combine the same conditions of helping to form patterns or to add to the body of the stuff, even though such threads be cut or show a want of continuity. In order to determine for customs treatment of textiles the number of threads and the proportion in which the threads * * * subject to the highest duty are found in the textile, the instrument known as the "thread counter" shall be employed.

Should there be a doubt as to the ascertainment of the number of threads in a textile, owing to the textile being more closely woven in some parts than in others, the most closely woven part and the most loosely woven part shall be taken, and the average number of threads resulting from the two shall serve as a basis for levying duty.

When the nature of the tissue permits it, the thread shall always be counted on the obverse side of the stuff.

In all woolly or melton-like textiles, and generally in all textiles in which the threads have become indistinct by carding or fulling, the threads shall be counted on the reverse side of the stuff by rasping or burning the hair when necessary.

In exceptional cases, where after these operations the ascertainment of the number of threads remains doubtful, a sufficient part of the textiles shall be unraveled.

Should this likewise be impossible, as, for instance, in case of ready-made articles, the textile shall be subject to the highest duty of the group to which it belongs, and should the textile be mixed, it shall be dutiable according to the class in which the most highly taxed material entering into the mixture is comprised.

Ready-made articles.

CUSTOM TREATMENT OF MIXED TEXTILES.

Mixed textiles.

Two materials.

RULE 2. ADMIXTURES OF TWO MATERIALS.—Textiles of all kinds, composed of two materials, shall be dutiable as follows:

(a) Cotton textiles containing threads of hemp, jute, linen, ramie, or other vegetable fiber shall be dutiable according to the corresponding numbers of group three, class four, with the surtaxes established in each case [Class IV, group three, Rule A]: *Provided*, That the number of these threads of hemp, jute, linen, ramie, or other vegetable fibers, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of hemp, jute, linen, ramie, or other vegetable fiber exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of class five.

(b) Cotton textiles containing threads of wool, flock wool, hair, or wastes of these materials shall be dutiable according to the corresponding numbers of group three, Class IV, with the surtaxes established in each case [Class IV, group three, Rule A]: *Provided*, That the

number of threads of wool, flock wool, hair, or their wastes, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VI, as textiles mixed with wool.

(c) Cotton textiles containing threads of silk or floss silk shall be dutiable according to the corresponding numbers of group three, Class IV, with the surtaxes established in each case [Class IV, group three, Rule A]: *Provided*, That the number of silk or floss-silk threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of silk or floss silk exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII [Class IV, group three, Rule A].

(d) Textiles of hemp, jute, linen, ramie, or other vegetable fibers, containing threads of wool, flock wool, hair, or their wastes shall be dutiable according to the corresponding numbers of group two, Class V, with the surtaxes established in each case [Class V, group two, Rule A]: *Provided*, That the number of these threads of wool, flock wool, hair, or their wastes counted in the warp and weft does not exceed one-fifth of the total number of threads composing the textile.

When the number of threads of wool, flock wool, hair, or their wastes exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of group three, Class VI, as textiles mixed with wool. [Class V, group two, Rule A.]

(e) Textiles of hemp, jute, linen, ramie, or other vegetable fibers containing threads of silk or floss silk shall be dutiable according to the corresponding numbers of group two, Class V, with the surtaxes established in each case [Class V, group two, Rule A]: *Provided*, That the number of these threads of silk or floss silk counted in the warp and weft does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII. [Class V, group two, Rule A.]

(f) Textiles of wool, flock wool, or hair, containing threads of silk, or floss silk, shall be dutiable according to the corresponding numbers of group three, Class VI, with the surtaxes established in each case [Class VI, group three, Rule A]: *Provided*, That the number of silk or floss-silk threads does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII. [Class VI, group three, Rule A.]

More than two materials.

RULE 3. ADMIXTURES OF MORE THAN TWO MATERIALS.—Textiles composed of more than two materials shall be dutiable as follows:

(a) Textiles containing an admixture of wool and cotton, or of wool and other vegetable fibers and, at the same time, threads of silk or of floss silk, shall be subject to the corresponding duties of Class VI, as mixed woollen textiles, whatever be the proportion of the threads of vegetable fibers, and shall, in addition, be liable to the surtax leviable on the silk or floss-silk threads: *Provided*, That the number of these threads counted in the warp and weft does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.

(b) Textiles containing an admixture of cotton and other vegetable fibers, and at the same time threads of silk or floss silk, shall be sub-

ject to the corresponding duties of Class V and assimilated to textiles of jute, hemp, and so forth, whatever be the proportion of the cotton threads; they shall, in addition, be liable to the surtax leviable on the silk or floss-silk threads: *Provided*, That the number of these threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of silk or floss-silk threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VII.

(c) Textiles of an admixture of wool, cotton, and other vegetable fibers, containing no silk threads, shall be subject to the corresponding duties of Class V, and shall, in addition, be liable to the surtax leviable on woollen threads: *Provided*, That the number of these threads, counted in the warp and weft, does not exceed one-fifth of the total number of threads composing the textile.

When the number of woollen threads exceeds one-fifth of the total, the textiles shall be subject to the corresponding duties of Class VI, as woollen textiles.

RULE 4. SILK TEXTILES.—All textiles containing silk or floss-silk threads the number of which, counted in the warp and weft, exceeds one-fifth of the total number of threads composing the textile, shall be considered as textiles of silk. Silks.

EXCEPTIONS.—For knitted stuffs, tulles, laces, blondes ribbons, and all pile fabrics provided for under paragraphs one hundred and twenty-four and one hundred and fifty-one, composed of an admixture, exception to the preceding rules shall be made in the following cases:

RULE 5. KNITTED AND NETTED STUFFS.—All kinds of knitted stuffs and tulles, laces, and blondes, when mixed, shall be dutiable according to the corresponding numbers of the class comprising threads of the material most highly taxed, whatever be the proportion of such threads in the textile. Knit, etc., goods.

Plushes, velvets, velveteens, and all pile fabrics provided for under paragraphs one hundred and twenty-four and one hundred and fifty-one, when mixed, shall be dutiable according to the corresponding numbers of the class comprising the threads of the material most highly taxed, whatever be the proportion of such threads in the textile.

Knitted stuffs, laces, blondes, tulles, and the pile fabrics mentioned in the preceding paragraph, comprised in Class VII, shall be considered as textiles mixed with silk when they contain threads of cotton or other vegetable fibers, or of wool or of flock wool, whatever be the proportion of such threads in the mixture.

RULE 6. RIBBONS.—Ribbons and galloons mixed with cotton and other vegetable fibers or with vegetable fibers and wool, containing no silk, shall be subject to the corresponding duties of the class comprising the threads most highly taxed. Ribbons.

Ribbons or galloons containing silk, in whatever proportion, shall be dutiable as textiles according to the corresponding numbers of Class VII.

RULE 7. TRIMMINGS.—Trimmings shall be dutiable on the total weight, as if exclusively composed of the apparent or visible textile material. Trimmings.

Trimmings composed on their apparent or visible part of various textile materials shall be subject to the corresponding duties of the class comprising the material most highly taxed. When the predominating component material consists of metallic threads of any kind, the trimmings shall be dutiable according to Class VII.

Trimmings are distinguished from ribbons and galloons by the latter being real textiles, with warp and weft, while trimmings are plaited.

SURTAXES.

Surtaxes.

RULE 8. ESTABLISHMENT OF SURTAXES.—The surtaxes applicable, owing to broché, embroidery, metal threads, or making up, shall always be computed on the duties leviable on the textile by taking into account, if necessary, the increase of such duties in case of admixture.

For the collection of the total duty, the surtaxes applicable for either of the above-mentioned reasons shall, when necessary, be added together.

Brochés.

RULE 9. BROCHÉS.—Textiles, brochés or woven like brocades, with silk or floss silk, shall be liable to the duties leviable thereon plus the surtaxes established in every case. [Class IV, group three, Rule B, letter (a), and Class V, group two, Rule B, letter (a).]

Brochés or brocaded textiles are all textiles with flowers or other ornaments applied by means of a shuttle in such manner that the threads do not occupy the entire width of the stuff, but only the space comprising the flower or pattern.

Embroidery.

RULE 10. EMBROIDERY.—Textiles embroidered by hand or machine after weaving or with application of trimmings shall be liable to the duties leviable thereon plus the surtaxes established in every case. [Class IV, group three, Rule B, letter (b); Class V, group two, Rule B, letter (b).]

Embroidery is distinguished from patterns woven in the textile as the latter are destroyed by unraveling the weft of the textile, while embroidery is independent of the warp and weft and can not be unraveled.

Metallic threads.

RULE 11. METALLIC THREADS.—Textiles and trimmings containing metallic threads, in whatever proportion, shall be liable to the duties leviable thereon, plus the surtaxes established in every case. [Class IV, group three, Rule B, letter (c); Class V, group two, Rule B, letter (c).]

Textiles exclusively composed of metallic threads shall be dutiable according to Class VII.

Made-up articles.

RULE 12. MADE-UP ARTICLES.—Textiles manufactured into articles of all kinds shall be liable to the duties leviable thereon, plus the surtaxes established in every case. [Class IV, group three, Rule B, letter (d); Class V, group two, Rule B, letter (d).]

Ready-made clothing, wearing apparel of all kinds and of any style, and, generally, all articles made up by the seamstress or tailor, shall, for their total weight, be liable to duties leviable on the principal component textile on their most visible exterior part.

For the application of the corresponding surtaxes, clothing and articles, half finished, cut or basted, shall be considered as made-up articles and clothing.

RULES APPLICABLE TO GOODS NOT SPECIALLY MENTIONED AND TO ARTICLES COMPOSED OF SEVERAL MATERIALS.

Classification of articles not specifically mentioned.

RULE 13. Articles not enumerated in the tariff shall, for the application of duty, be assimilated to those which they most closely resemble (see rule fifteen), and shall in the first instance be so classified by the collector of the port of entry into which the articles are brought.

When an article presented for appraisal is not mentioned in a number of the tariff or in the repertory, and when doubts arise as to its assimilation to articles specified in the tariff, the interested party or the importer may request the collector at the port of entry to indicate the number according to which such article is dutiable.

In such case the appraisal shall be made according to the number so indicated.

Articles of two or more materials.

RULE 14. Articles which, by reason of their nature or their application, are composed of two or more materials or of different parts, as.

for instance, the handle of an implement and the implement itself; the glass and frame of a mirror, shall, for the total weight, be taxed according to the material chiefly determining the value of the article.

Similar articles.

RULE 15. That each and every imported article, not enumerated in this Act, which is similar, either in material, quality, texture, or the use to which it may be applied, to any article enumerated in this Act as chargeable with duty, shall pay the same rate of duty which is levied on the enumerated article which it most resembles in any of the particulars before mentioned; and if any nonenumerated article equally resembles two or more enumerated articles on which different rates of duty are chargeable, there shall be levied on such nonenumerated article the same rate of duty as is chargeable on the article which it resembles paying the highest rate of duty; and on articles not enumerated, manufactured of two or more materials, the duty shall be assessed at the highest rate at which the same would be chargeable if composed wholly of the component material thereof of chief value; and the words "component material of chief value," wherever used in this Act, shall be held to mean that component material which shall exceed in value any other single component material of the article; and the value of each component material shall be determined by the ascertained value of such material in its condition as found in the article. If two or more rates of duty shall be applicable to any imported article, it shall pay duty at the highest of such rates.

REGULATIONS TO BE APPLIED TO LEVYING DUTY ON PACKING, PACKAGES, AND RECEPTACLES.

RULE 16. Common packing, packages, receptacles, and coverings of imported merchandise in use and imported with such merchandise, shall be dutiable under their corresponding paragraphs of the tariff except in cases of goods dutiable by gross weight or ad valorem.

Packing, packages, and receptacles.

RULE 17. In all cases in which dutiable merchandise shall by its tariff number be dutiable upon the gross weight, the dutiable weight of such merchandise shall include the weight of all covers, receptacles, wrappers, packages, and packing of every description, whether exterior, interior, or immediate, without any allowance for tare.

RULE 18. In all cases in which dutiable merchandise shall by its tariff number be dutiable upon net weight, the dutiable weight of such merchandise shall not include the weight of any common exterior cover, receptacle, package, wrappers, or packing, but shall include all interior or immediate receptacles.

RULE 19. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section forty-four hundred and seventeen of the Revised Statutes of the United States be amended to read as follows:

"SEC. 4417. The local inspectors shall, once in every year, at least, carefully inspect the hull of each steam vessel within their respective districts, and shall satisfy themselves that every such vessel so submitted to their inspection is of a structure suitable for the service in which she is to be employed, has suitable accommodations for passengers and the crew, and is in a condition to warrant the belief that she may be used in navigation as a steamer, with safety to life, and that all the requirements of law in regard to fires, boats, pumps, hose, life-preservers, floats, anchors, cables, and other things are faithfully complied with; and if they deem it expedient they may direct the vessel to be put in motion, and may adopt any other suitable means to test her sufficiency and that of her equipment. The local inspectors shall, once in every year, at least, carefully inspect the hull of each sail vessel of over seven hundred tons carrying passengers for hire and all other vessels and barges of over one hundred tons burden carrying passengers for hire within their respective districts, and shall satisfy themselves that every such vessel so submitted to their inspection is of a structure suitable for the service in which she is to be employed, has suitable accommodations for the crew, and is in condition to warrant the belief that she may be used in navigation with safety to life: *Provided*, That vessels while laid up and dismantled and out of commission may, by regulations established by the Board of Supervising Inspectors, with the approval of the Secretary of Commerce and Labor, be exempted from any or all inspection under sections forty-four hundred and seventeen, forty-four hundred and eighteen, forty-four hundred and twenty-six, forty-four hundred and twenty-seven. Any person who willfully and knowingly manufactures or sells, or offers for sale, or has in his possession with intent to sell, life-preservers containing metal or other nonbuoyant material, for the purpose of increasing the weight thereof, or more metal or other such material than is reasonably necessary for the construction thereof, or who shall so manufacture, sell, offer for sale, or possess with intent to sell any other articles commonly used for preservation of life or the prevention of fire on board vessels subject to the provisions of this title, which articles shall be so defective as to be inefficient to accomplish the purposes for which they are respectively intended and designed, shall upon conviction, be fined not more than two thousand dollars, and may, in addition thereto, in the discretion of the court, be imprisoned not exceeding five years."

Preamble.

Whereas it is desirable to commemorate in a fitting and appropriate manner the birth of the American nation, the first permanent settle-

Whereas that section of the Commonwealth of Virginia where the first permanent settlement was made is conspicuous in the history of the American nation by reason of the vital and momentous events which have there taken place in the colonial, Revolutionary, and civil war eras of the nation, including not only the first permanent settlement of English-speaking people, but also the scene of the capitulation of Lord Cornwallis at Yorktown, and the scene of the first naval conflict between armor-clad vessels, the Monitor and Merrimac: Therefore
